Amendments to the Specification:

Submitted herewith is a Substitute Specification that includes all the changes made to the

original specification after the Preliminary Amendment of May 24, 2001 was made. It is noted that

inasmuch as the Examiner has not entered applicants' previously submitted Substitute Specifications,

the Substitute Specification submitted herein includes all the changes previously submitted together

with additional changes presented with the current amendment.

In addition, a marked-up copy of the original Specification (with the Preliminary Amendment

of May 24, 2001 entered) is being submitted.

Applicant affirms that the Substitute Specification submitted herewith only includes those

changes shown in the marked-up copy of the original Specification. Also, care has been taken to

avoid adding any new matter to the specification.

Entry of the Substitute Specification is earnestly requested.
